DetailsApplyDescriptionYour Talent. Our Vision. At Anthem, Inc., it's a powerful combination, and the foundation upon which we're creating greater access to care for our members, greater value for our customers, and greater health for our communities. Join us and together we will drive the future of health care. This is an exceptional opportunity to do innovative work that means more to you and those we serve at one of America's leading health benefits companies and a Fortune Top 50 Company.The position is for an Agile Coach that will be responsible for guiding and implementing Agile principles within the Anthem Enterprise Analytics and Insights organization. This role will support delivery teams that provide application development and implementation for various business organization including Program Integrity, Medicare, Clinical Quality, and Healthcare Analytics. This position will report directly to the head of the Enterprise Analytics and Insights - Clinical Analytics Applications team. Responsible for providing Agile leadership and applying Agile knowledge, skills, tools and techniques to ensure delivery of project deliverables, processes, and systems. Supports continuous improvement of project execution and delivery processes. The individual must be able to lead and manage program / project business and IT stakeholders in a collaborative manner in order to successfully deliver planned scope, with quality, and according to approved timelines. The individual should be able to work independently and align with direction provided by leadership for executing according to organizational strategy and priorities. Primary responsibilities include, but are not limited to: * Incorporate Anthem Agile / SAFe concepts into execution activities as appropriate as directed by the Anthem Agile Center of Excellence * Leading project meetings; identifying, documenting and prioritizing scope changes; facilitating approval process; maintaining / updating project documents * Acts as change agent and demonstrates to the teams how the Agile processes and systems work. * Guide and mentor multiple teams in the consistent practice of Agile concepts, including roles, ceremonies, processes, compliance, and tool usage within Anthem's Agile delivery context. * Improves application of Agile principles. Improve team understanding of Agile practice. * Promote metrics-led, continuous improvement of the Agile delivery processes and propose adaptations of the methodology to address novel situations. * Assists with improving operational metrics in efficiency and quality. * Assists with refining the Agile delivery process to reduce areas of uncertainty that become impediments for the team. * Ensuring stakeholders are held accountable for assignments and escalation is conducted when needed in a timely manner. * Ensure that quality feedback is coordinated and communicated to IT so that potential problems can be implemented enterprise wide. * Participates in both the internal and
